

LE KHAC DUY ANH – SENIOR SOFTWARE DEVELOPER

10 years of experience in the tech industry. Proficiency in JavaScript, ReactJS, and NodeJS, with a comprehensive understanding of Shopify Themes and Apps. Experience includes iterative development and writing testable code, both of which have significantly contributed to career progression.

Known for problem-solving skills and readiness to tackle new challenges. Committed to continuous learning and staying at the forefront of the latest tech trends. Actively contributes to open-source projects.

Fluent in both Vietnamese and English.

Technical Lead at EcomMonsters (2020 – Present)

Manages multiple stores across platforms like Shopify, Etsy, and Amazon. Leads projects from planning to execution, consistently meeting timelines and budgets. Data-driven strategies have resulted in a doubled store conversion rate and an 80% increase in average order value.

Develops effective upselling strategies and user-centric landing pages. Integrates core services with third-party suppliers, fulfillment services, and payment gateways. Fosters a team culture of empathy and understanding, addressing the needs and challenges of team members.

Full-Stack Developer at NogginAI (2019 – 2020)

Released an MVP for a Data Exchange Platform and created web applications to demonstrate AI model training. Developed a custom web consent widget for collecting data, showcasing the ability to create user-friendly interfaces.

Full-Stack Developer at ShopBack (2017 – 2019)

Worked on several modules in the Cashback Application, including Access Control List, Offer Management, and Coupon Management. Designed APIs and integrated web applications with backend services, demonstrating full-stack development skills.

Full-Stack Developer at Intersquad (2016 – 2017)

Developed an e-ticket platform and created a data mining bot. Worked with various content management systems, developing templates and plugins for systems like WordPress and CraftCMS.

Full-Stack Developer at WinBooks (2013 – 2015)

Developed several modules for an Accountant-focused Web Application. Improved functionality and user experience in general accounting, reporting, and assets management modules.

Bachelor of Computer Science, Open University (2008–2012)
