WORKING EXPERIENCES

2020 - Now

He is a Technical Director at ECM - A young & wild e-commerce company.

He uses Shopify & JavaScript to bring happiness, joy, and good enough shopping experiences to over 110K Customers in the US.

Since 2013

He worked for many companies in various business domains, including saas, agency, e-commerce, marketing, accounting and business management.

He used a bunch of tech stacks, read and wrote many languages from JavaScript, PHP, C#, and deep into Assembly without fear.

GOOD MOMENTS IN LIFE

- 61% increase in the online store's conversion rate in one month.
- 99% customer satisfaction since 2020.
- Made ECM's fulfillment tasks less human mistakes by providing an automation system.
